

**Wire Shelving**

**Wire Shelving**

SpeedRack wire shelving system offers simple to build and stylish storage solutions. The system is ideal for home and office as well as retail display due to the open wire construction offering excellent light distribution onto the products displayed.

The shelving is also suited in kitchens for storing dry food and crockery etc, whilst the excellent ventilation through the system makes it perfect for server racks and computer workstations as well as laundry and linen stores.

The chrome finish offers a bright, clean and a modern feel to the shelving, but should only be used in dry areas and should not come into contact with moisture.

Powder Coated finish is optional.

**Wire Shelf Trolley**

Genuine SpeedRack wire shelf trolleys can resist corrosion, prevent the build up of dust and dirt, improve the visibility of stored parts and allow for sprinkler penetration and ventilation. Cart comes complete with four casters in a two or three shelf configuration.
